*'It's important to keep Shelter going. They kept a roof over my head - something everyone deserves'*

Sarah

Sarah had always paid her mortgage. But when she was made redundant from her job of eight years, things began to spiral out of control.

But then Sarah called Shelter. They helped her fight eviction, and keep the home she shared with her disabled mother and five-year old daughter.

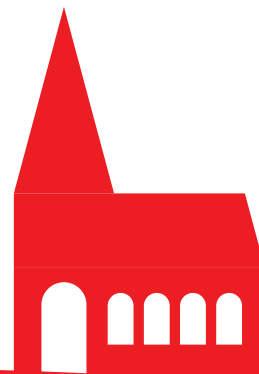

Shelter answered Sarah's call. **Will you make sure we can answer another?**
