

Asset checklist

Three important steps towards making or changing your Will

1. Calculate the value of your assets

It is important when you make or change your Will to have a clear idea of what your estate is worth. A good way to do this is to list everything you own and its approximate value, based on what you would be likely to receive for each item or asset if you were to sell it now. If you own an item or property jointly with someone else, you should include only the value of your share.

This checklist will help you make a list of what you own and get a good idea of what your estate is worth.

Add up what you own (current value)
